PROFESSIONAL SUMMARY

Data Analyst with a strong foundation in Python, SQL, and Power BI, passionate about transforming complex datasets into actionable business strategies. Recently graduated with a Master's in Data Science from the Rome Business School. Experienced in applying data-driven methodologies (CRISP-DM) to solve business bottlenecks, optimize financial planning (FP&A) and predict customer behavior, and currently pursuing a professional certificate in data analytics by Imperial College Business School. Holding dual Brazilian / Portuguese citizenship and accustomed to multicultural environments across Italy and Germany, I am ready to drive immediate strategic value in the European tech market.

PROFESSIONAL EXPERIENCE

Coveract SRL

Quality Analyst | July 2025 – Dec 2025, Turin, Italy

- Worked at Minibea Access Solutions(client), Analyzed performance metrics and statistical control charts to ensure BMW components met rigorous safety and functional standards, driving data-informed quality control.

MICLA ENGINEERING AND DESIGN

Consultant | Aug 2023 – Feb 2024, Rivoli, Italy

- Provided comprehensive support to the Italdesign Giugiaro development team in automotive durability testing activities.
- Managed test coordination, ensuring accurate procedures and results, and actively contributed to continuous process improvement.

ZENATUR

Business Assistant | Mar 2022 – Dec 2022, São Bernardo do Campo, Brazil

- Assisted in promotional logistics coordination, ensuring timely delivery of Samsung promotional materials for events across Brazil, including the Brasil Game Show (BGS).
- Responsible for efficient material delivery, directly contributing to event success and brand visibility.

T-SYSTEMS DO BRASIL

Intern | Aug 2019 – Aug 2021, São Bernardo do Campo, Brazil

- Assisted Service Delivery Managers (SDMs) in various service management functions.
- Conducted daily meetings with international teams, using fluent English, facilitating global collaboration and effective communication across different countries.

VIENNA CAFÉ

Store Manager | Jul 2016 – Oct 2018, São Bernardo do Campo, Brazil

- Managed a family-owned store, focusing on inventory management, customer service, and financial control.
- Implemented supervisory strategies that significantly improved customer experience and optimized cash flow and financial processes.

RUCKER DO BRASIL

Intern | Feb 2012 – Dec 2012

- Developed technical drawing skills using Catia V5, working with clients such as Peugeot, 3M, Volkswagen do Brasil, Inylbra, MAN, and Renault.
- Supported the engineering team in creating precise and detailed projects, contributing to efficient project execution.

EDUCATION

- Master's in Data Science, Rome Business School (2024)
- Bachelor's in Business Administration, FASB (2022)

SKILLS

- **Programming Languages:** Python
- **Data Visualization Tools:** Power BI, Tableau
- **Big Data Concepts:** Data Lake, Data Warehouse, Hadoop, Spark
- **Statistical Modeling:** Predictive Analysis, Regression Models
- **Data Analysis:** Data Cleansing, Exploratory Data Analysis
- **Data Management Tools:** Scala, Excel, SQL

LANGUAGES

- Portuguese: Native
- English: Fluent
- Italian: Advanced
- Spanish: Intermediate
- German: Basic

CERTIFICATIONS AND COURSES

- Professional Certificate in Data Analytics - Imperial College Business School
- Datacamp: Power BI Data Analyst, SQL Data Analyst, Python Data Analyst

PROJECTS & BUSINESS CASES

Transforming raw data into proactive business strategies. Click on the Medium links for detailed executive summaries, or visit the GitHub repositories to explore the technical architecture behind each solution.

Customer Retention & Predictive Churn Analytics (Master's Capstone Project) | *Power BI, DAX, CRISP-DM*

Links: [Github](#) | [Medium](#)

- Architected an end-to-end Power BI command center analyzing 19,000+ e-commerce transactions to identify churn risk and optimize Customer Lifetime Value (CLV).
- Engineered a dynamic Star Schema and advanced DAX measures to build fully interactive RFM (Recency, Frequency, Monetary) segmentation and Cohort Analysis matrices.
- Translated Python-based Machine Learning outputs (XGBoost/Logistic Regression) into a geo-strategic action plan, prescribing targeted retention campaigns for 4 European market clusters.

Financial Planning & Analysis (FP&A) Dashboard | *Power BI, Financial Modeling, DAX*

Links: [Github](#) | [Medium](#)

- Automated financial reporting for a B2B condominium management client, unifying isolated daily cash flow ledgers and annual forecasts into a centralized dashboard.
- Developed real-time Actual vs. Budget variance analysis, eliminating manual Excel errors and enabling proactive capital allocation for the executive board.

Credit Risk & Default Prediction Analysis | *Data Analytics, Risk Modeling*

Links: [Github](#) | [Medium](#)

- Designed a data-driven risk assessment model to evaluate default probabilities and optimize credit allocation strategies.

Supply Chain & Logistics Optimization | *Data Analytics, Performance Tracking*

Links: [Github](#) | [Medium](#)

- Developed an operational analytics solution to track delivery performance, identify supply chain bottlenecks, and improve logistical efficiency.
